Step 01 : Download the WIN RAR file from website

Can download from this link also - http://www.filehippo.com/search?q=rar
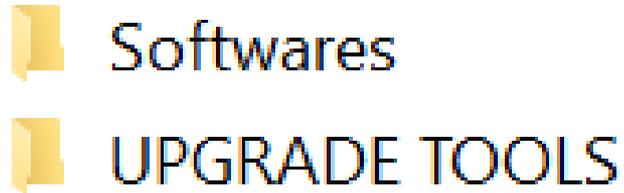

Note :- If you already have WIN RAR software, then no need to download again

Step 02 : Right click on RAR file (sent by we transfer) & choose to Extract the files..

C52

| Open |
| Open with WinRAR |
| Extract files... |
| Extract Here |
| Extract to C46\ |
| Scan with Windows Defender... |
| Open with... |
| Share with |
| 上传到百度云 |
| Scan with Bitdefender Endpoint Security Tools |
| Restore previous versions |
| Send to |
| Cut |
| Copy |

Extract files

C52
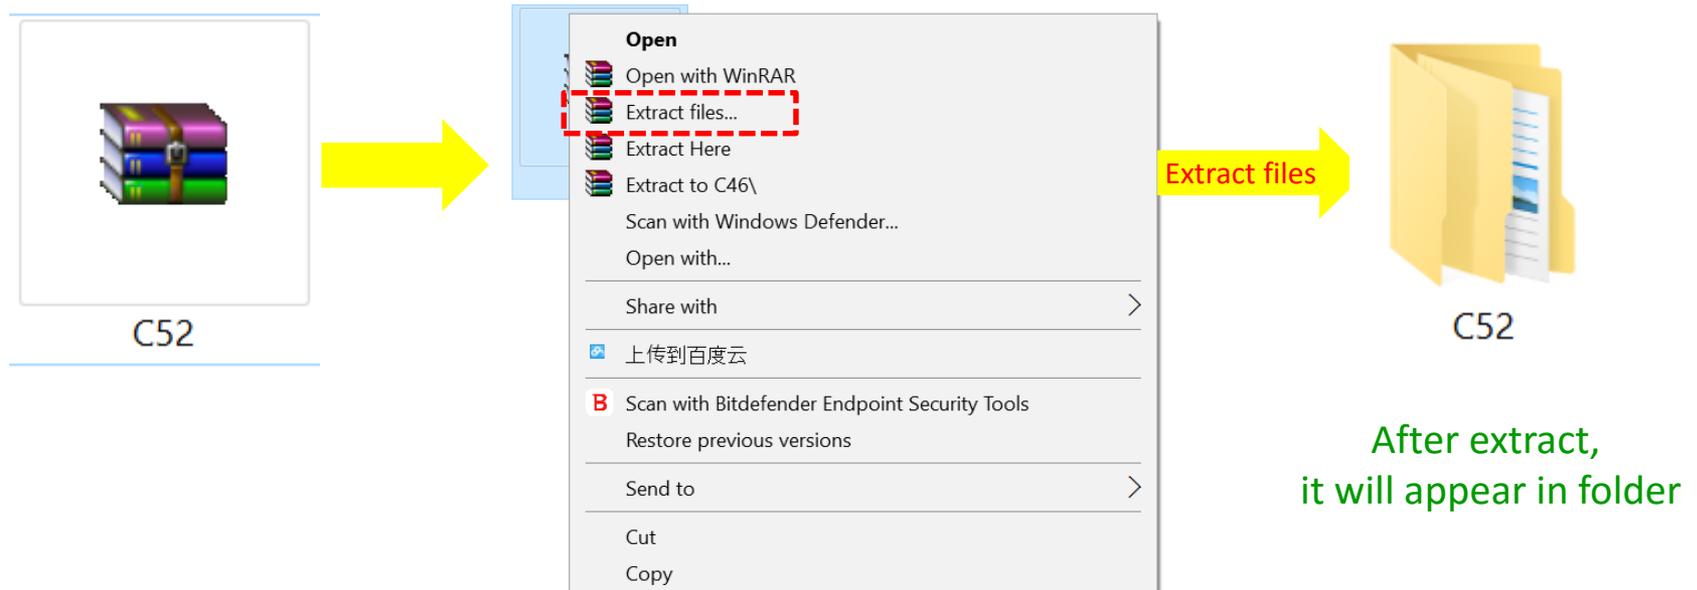

After extract,
it will appear in folder

Step 03 : Open the Folder "C52" inside the folder have 2 files as below

📁 Softwares

📁 UPGRADE TOOLS

Step 04 : Open the folder "Software". And find the below file

ZURI_C52_A_Ver_05_20160511   → Extract files →   ZURI_C52_A_Ver_05_20160511.pac
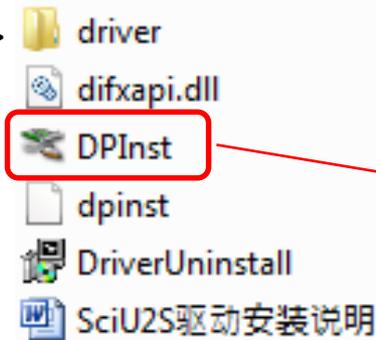

After extract,
it will appear like this

Step 05 : Open the folder "C52" and Navigate to the Following Folder
→ "UPGRADE TOOLS"
→ "SciU2S"
→ Go in **X64** or **X86** folder (according to your PC configuration)

Tips -- > Mostly it's X64

Now you will be here --- >

- driver
- difxapi.dll
- DPInst
- dpinst
- DriverUninstall
- SciU2S驱动安装说明

Click on DP install & install the driver

Step 06 : Open the folder "C52" and Navigate to the Following Folder
→ "UPGRADE TOOLS"
→" UPGRADEDOWNLOAD_R2.9.9015"
→" Bin" and find the File "UpgradeDownload" as shown Below.

Go to folder "**UPGRADEDOWNLOAD_R2.9.9015**" --- > "**Bin**" Folder
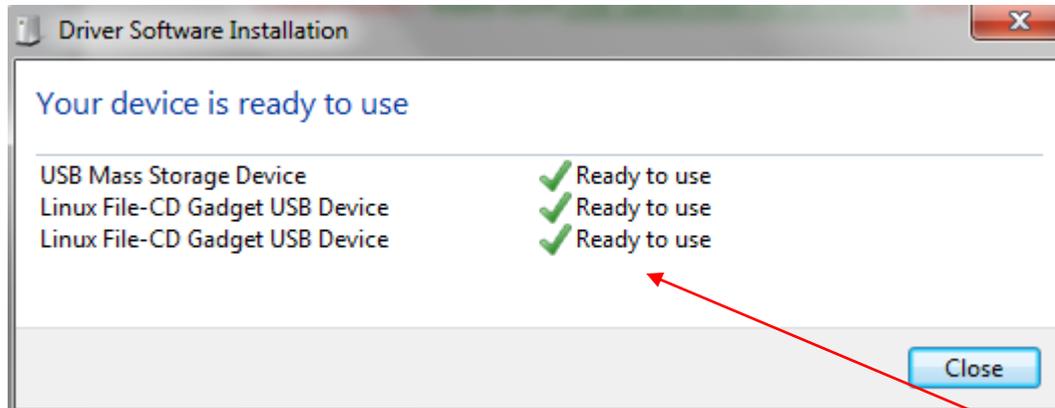

Click on "Upgrade Download"

This window will be open

Step 07 : Make the phone "Factory Reset" & Make it ON

Step 08 : Connect the Phone with your PC through USB cable

Check Point :- Make sure USB cable shall be of Phone   (Not Power Bank)

PC will take the Phone Driver Automatically & after successful install …message as above picture shall appear

Note

If you already connected this phone before with same PC then it will not show the Driver update process & the above message will not appear

Means -- > Your PC already have the Phone Driver

Step 09 : Open the folder "**UPGRADEDOWNLOAD_R2.9.9015**" --- > "**Bin**" Folder -- > Click on "Upgrade Download"

📁 UPGRADEDOWNLOAD_R2.9.9015

- BMAConfig
- BMAFrame9.dll
- BMError
- BMFileType
- BMPlatform9.dll
- BMTimeout
- Channel
- Channel9.dll
- Guide
- MCPType
- ProcessFlow.dll
- ProcessFlowSetting
- udl_bkmark
- UpgradeDownload
- UpgradeDownload

Click on "**Upgrade Download**" ◄──────
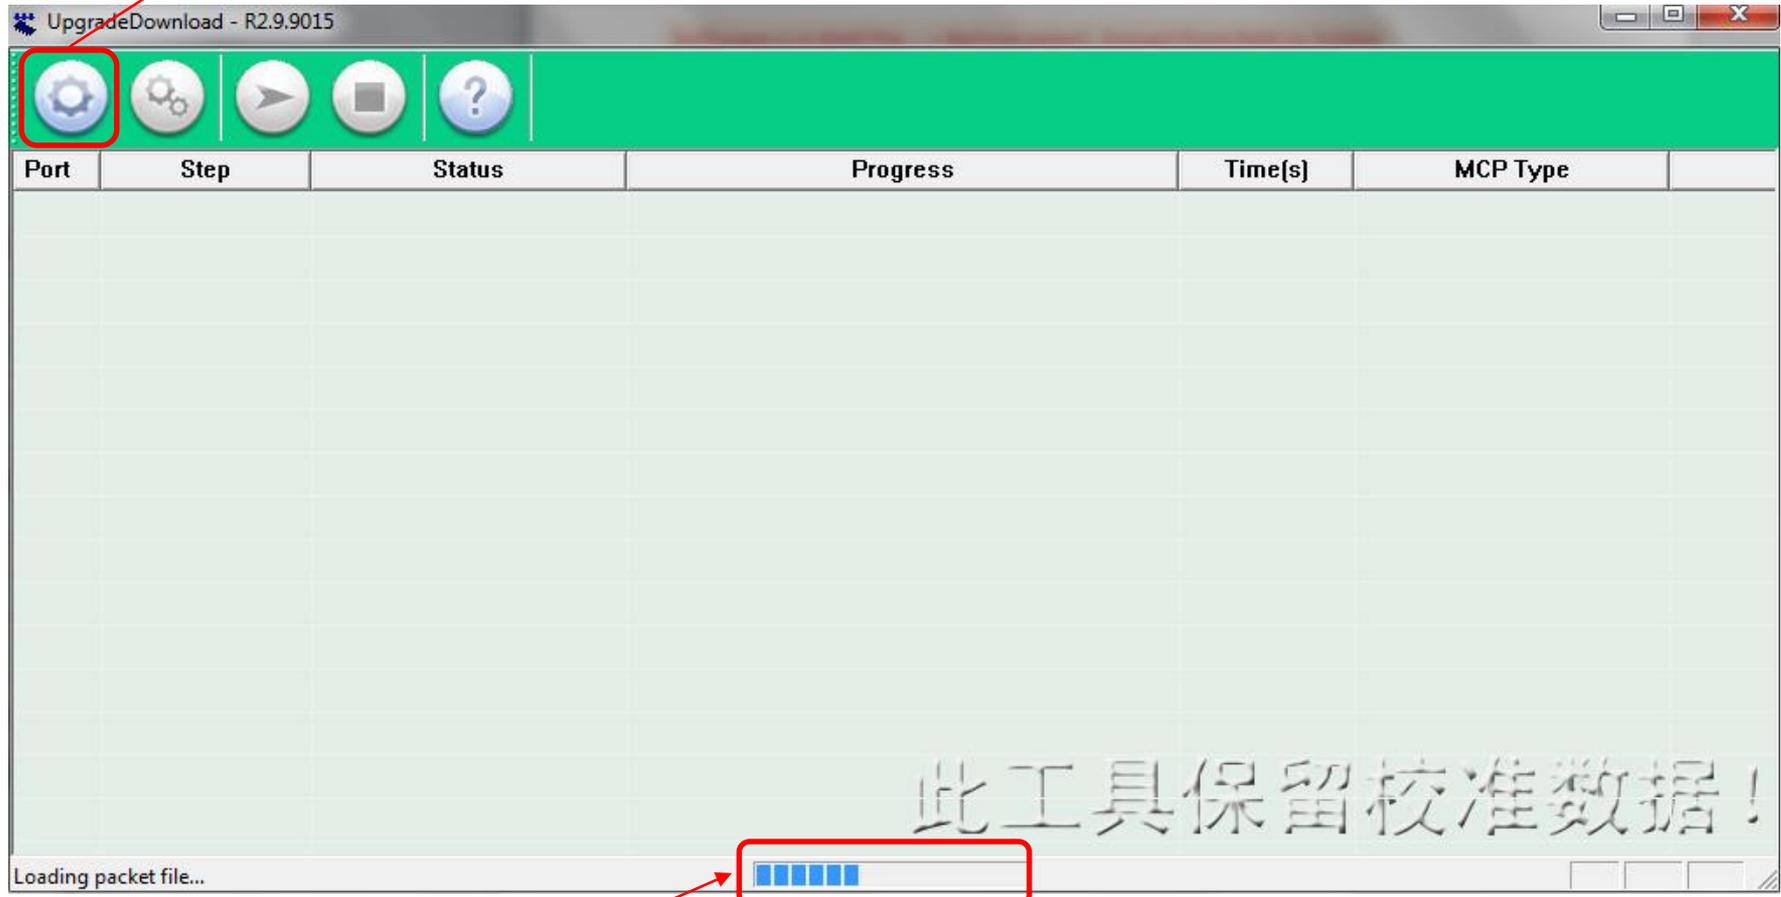

After Click on "**Upgrade Download**" -- > Below Window will be open

Step 10 : Select the software to be Upload

Click here & select the software "**ZURI_C52_A_Ver_05_20160511**"   ZURI_C52_A_Ver_05_20160511.pac

UpgradeDownload - R2.9.9015

Port	Step	Status	Progress	Time(s)	MCP Type
